1 Bill of Materials - BFOSS24 12.09.2024

In the subsequent chapters a comprehensive list of the asset covered by BFOSS24 12.09.2024 is provided. A license overview summarises all licenses evaluated for BFOSS24. For each license the artefacts associated with this license is are listed.

1.1 Artifacts

The following table lists all *artifacts* included in the software covered by this document. The list is organized by components to group the artifacts.

Component	Artifact(s)	Effective License(s)
byte-buddy	byte-buddy-1.14.11.jar	Apache License 2.0, BSD 3-Clause License, BSD 3-Clause License (copyright holder variant)

1.2 Packages

There are no individual *packages*.

1.3 Licenses in Effect

Table [Licenses in Effect](#) provides an overview of the licenses in effect. In the following paragraphs the individual components are listed for each effective license.

Please note, that a component may be subject to several licenses in effect.

License in Effect	SPDX Id	OSI Status	Number of Components
Apache License 2.0	Apache-2.0	approved	12
Beerware License	Beerware	not submitted	1
BSD 2-Clause License ¹	BSD-2-Clause	approved ¹	2
BSD 3-Clause License ¹	BSD-3-Clause	approved ¹	5
GNU General Public License 2.0 (with exceptions) ¹			2
MIT License ¹	MIT	approved ¹	3
Mozilla Public License 2.0	MPL-2.0	approved	2
Public Domain ¹			3
SIL Open Font License 1.1	OFL-1.1	approved	2
W3C License (undefined)			2
W3C Software Notice and License (2002-12-31)	W3C		2

Tabelle 2: Licenses in Effect

Apache License 2.0

The following table lists all components that are licensed or contains subcomponents under Apache License 2.0. Information with respect to the license or contract can be found in [Apache License 2.0 \[external\]](#).

Component	Artifact / Package / Web Module	Version
byte-buddy	<i>net.bytebuddy / byte-buddy</i> byte-buddy-1.14.11.jar	1.14.11
commons-codec	<i>commons-codec / commons-codec</i> commons-codec-1.16.1.jar	1.16.1
commons-logging-jboss-logging	<i>org.jboss.logging / commons-logging-jboss-logging</i> commons-logging-jboss-logging-1.0.0.Final.jar	1.0.0.Final
httpclient	<i>org.apache.httpcomponents / httpclient</i> httpclient-4.5.14.jar	4.5.14

The SIL Open Font License 1.1 requires to include the component specific copyright, but the provided public information does not convey copyright details.

Further, the SIL Open Font License 1.1 requires to include the license conditions, termination clause and disclaimer:

1. Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
2. Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
3. No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.
4. The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.
5. The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

The SIL Open Font License 1.1 requires to include the component specific copyright, but the provided public information does not convey copyright details.

Further, the SIL Open Font License 1.1 requires to include the license conditions, termination clause and disclaimer:

1. Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
2. Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
3. No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.
4. The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.
5. The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

Glossar

Artifact

An artifact is a physical file such as an executable binary, archive, document, text or configuration file. An artifact is associated with a component.

See also: [components](#)

Component

A component is a group of one or more artifacts, packages or web modules. A component can be regarded as logical aggregate. License information is assigned at the component level and is consistent within aggregated artifacts, packages and web modules.

See also: [Artifact](#), [Package](#), [web modules](#), [subcomponents](#)

Package

A package consists of a set of files that are installed as a whole. A package can be part of a component that is represented by one or more packages.

See also: [Component](#)

Subcomponent

A subcomponent is a component that is embedded in a parent component. Special licenses may be assigned to a subcomponent.
